submissions:

31 August 2024

Message from the Guest Editors

Dear Colleagues,

The buzzword "Sustainable development" has exerted significant impacts on urban planning, housing, land development and urban policy across the world. A common assumption made by researchers and authorities is that planning improves the sustainability of an area. Accordingly, various sustainable planning strategies have been adopted to promote high-quality urban and land development. Research in this area aims to unveil the sustainable implications of urban and land planning in a more holistic manner, thus shedding light on the dynamic relationships between different domains of planning and sustainability issues across the world.

For this Special Issue, we invite contributions that link planning strategies to sustainable urban and land development, either through empirical research or conceptual/theoretical works, examining any key processes, including, but not limited to, the following:

- Sustainable planning;
- Urban and land development;
- Smart city;
- Urban vibrancy;
- Residential satisfaction;
- Social integration;
- Urban green space;
- Land spatial pattern.

an Open Access Journal by MDPI

Message from the Editor-in-Chief

Land is the only open access journal covering all aspects of land science, and it is a pioneering platform for publishing on land system science. Our editorial board is comprised of eminent scholars. We publish high quality research on societally relevant, emerging and innovative topics and results in land system research. It is now one of the top land journals with a significant impact factor, and has a goal to become the best journal in land in the coming years. I strongly recommend *Land* for your best research publications for a fast dissemination of your research.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SSCI (Web of Science), PubAg, AGRIS, GeoRef, RePEc, and other databases.

Journal Rank: JCR - Q2 (*Environmental Studies*) / CiteScore - Q2 (*Nature and Landscape Conservation*)
