submissions:

**1 September 2024**

### Message from the Guest Editors

Dear Colleagues,

Across the globe, bilingualism is the norm. Bilingual speakers occupy unique sociolinguistic environments in that their language input and output are defined by variability, both in quality and quantity. Yet, many of our theories of language acquisition and current knowledge and practices are based on a monolingual model. Further research is necessary to delineate how variables unique to the bilingual environment such as non-native input, code-switching, speaker variability, social cues, and other variables impact language acquisition so that equitable educational and clinical practices can be implemented for all individuals.

Topics include, but are not limited to:

- Exploring individual differences impacting language trajectories
- Exploring environmental factors impacting language trajectories
- Impact of learning from code mixed input
- Bilingual language development in neurodivergent children
- Clinical and educational considerations for bilingual speakers

## Message from the Editor-in-Chief

*Languages* (ISSN 2226-471X) is now in its eighth year since its inception in 2015. It is an Open Access journal which seeks to stimulate debates on key issues in languages and linguistics. We welcome papers at the cutting edge of different fields, ranging from applied linguistics to descriptive and theoretical linguistics. Submissions may consist of research articles and critical reviews as well as proposals for Special Issues where multi-disciplinary approaches and different perspectives on current issues are explored. We invite you to consider *Languages* as a forum for sharing your work.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, ESCI (Web of Science), ERIH Plus, and other databases.

**Journal Rank:** CiteScore - Q2 (*Language and Linguistics*)
