## **Flexibility and Efficiency in Reconfigurable Manufacturing Systems**

Guest Editors:

**Dr. Ismail M. Ali**

School of Systems and  
Computing, University of New  
South Wales, Canberra, ACT  
2610, Australia

**Dr. Ripon K. Chakraborty**

School of Systems & Computing,  
University of New South Wales-  
Canberra, Canberra, ACT 2610,  
Australia

Deadline for manuscript  
submissions:

**31 October 2024**

### **Message from the Guest Editors**

Dear Colleagues,

We invite researchers, academics, and practitioners from around the globe to contribute their recent findings, innovations, and insights to this Special Issue. Whether your work explores novel reconfiguration strategies, optimization algorithms, simulation techniques, artificial intelligence tools, case studies, or real-world applications, we welcome diverse perspectives and contributions that advance the state of the art in flexibility and efficiency within RMSs.

This Special Issue aims to present an exceptional platform for researchers to showcase their work, collaborate with peers, and make a meaningful impact in the domain of reconfigurable manufacturing systems. We look forward to receiving your submissions and to collectively advancing the frontiers of knowledge in this exciting and transformative field.

## **Message from the Editor-in-Chief**

*Machines* is an international, peer reviewed journal on machinery and engineering. It publishes research articles, reviews and communications.

Our aim is to encourage scientists to publish their experimental and theoretical results in as much detail as possible. There is no restriction on the length of the papers. Full experimental and/or methodical details must be provided.

There are, in addition, unique features of this journal: Manuscripts regarding research proposals and research ideas will be particularly welcomed; Electronic files or software regarding the full details of the calculation and experimental procedure - if unable to be published in a normal way can be deposited as supplementary material.

## **Author Benefits**

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within *Scopus*, *SCIE (Web of Science)*, *Inspec*, and other databases.

**Journal Rank:** JCR - Q2 (*Engineering, Mechanical*)
