Topological Spin Textures and Their Applications

Guest Editors:

Dr. Xichao Zhang

Dr. Israa Medlej

Prof. Dr. Roberto Zivieri

Message from the Guest Editors

This Special Issue, *Topological Spin Textures and Their Applications*, will focus on both the fundamental research of two-/three-dimensional topological spin textures and the developments of practical applications based on topological spin textures.

Deadline for manuscript
submissions:

closed (30 September 2022)

- spintronics
- topological magnetism
- chiral magnetism
- topological spin textures
- chiral spin textures
- chiral domain walls
- chiral bubbles
- skyrmions
- skyrmioniums
- biskyrmions
- merons
- bimerons
- bimeroniums
- hopfions
- Dzyaloshinskii–Moriya interactions
- chiral interactions
