Message from the Guest Editors

The 43rd International Conference on Coordination Chemistry (ICCC 2018) will be held from July 30 to August 4, 2018 in Sendai, Japan. Since the beginning of the ICCC in 1950, it has been highly active and the largest venue for the exchange of the latest knowledge concerning coordination chemistry and related areas among researchers from all over the world. Coordination chemistry has expanded into a huge multidisciplinary research area involving large numbers of chemists, physicists, biologists and medicinal scientists.

We invite all the researchers presenting their results at the 43rd International Conference on Coordination Chemistry (ICCC-43), to be held from July 30 to August 4, 2018 in Sendai (Japan), to submit their contributions to this Special Issue on any topic related to magnetic properties. For *Magnetochemistry* (ISSN 2312-7481), there is currently no article processing charge (APC) for articles submitted in 2018.
