Message from the Guest Editor

Dear Colleagues,

The late Prof. Tatsuo Higa devoted himself to the development of marine natural product chemistry for years (1970–2005). To commemorate his enthusiastic activities, we would like to open a space for his memory. As he focused mainly on the isolation of new bioactive molecules from marine organisms, we request researchers to contribute papers on isolation, biological activities and pharmacological mechanisms, structure–activity relationship, ecological aspects, biodiversity, synthesis, biosynthesis, and other relevant issues on marine natural products.

Prof. Dr. Junichi Tanaka

Message from the Editor-in-Chief

During the past few decades there has been an ever increasing number of novel compounds discovered in the marine environment. This is exemplified by the robust preclinical and clinical pipeline that currently exists for marine natural products. *Marine Drugs* is inviting contributions on new advances in marine biotechnology, pharmacology, chemical ecology, synthetic biology, and genomics approaches related to the discovery of therapeutically relevant marine natural products. Our goal is to share your contribution in a timely fashion and in a manner that will be valued by the scientific community.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [MEDLINE](#), [PMC](#), [Embase](#), [PubAg](#), [MarinLit](#), [AGRIS](#), and [other databases](#).

Journal Rank: JCR - Q1 (*Pharmacology & Pharmacy*) / CiteScore - Q1 (*Pharmacology, Toxicology and Pharmaceutics (miscellaneous)*)
