

Bioinspired Materials: From Living System to New Concepts in Materials Chemistry

Guest Editor:

Prof. Dr. Stephan E. Wolf

Department of Materials Science
and Engineering, Institute of
Glass and Ceramics, Friedrich-
Alexander-University Erlangen-
Nürnberg, 91058 Erlangen,
Germany

Deadline for manuscript
submissions:

closed (30 April 2019)

Message from the Guest Editor

In this Special Issue, we address recent advancements in our understanding of the synthesis and properties of biogenic materials, along with current developments in our venture to transform our newly gained insights into novel approaches for materials design and synthesis. It is my pleasure to invite you to submit manuscripts for this Special Issue. Full papers, communications, and reviews are all welcome. Representative topics include but are not limited to: self-organization, (non)classical crystallization, biogenic ceramic materials, evolutionary testing and optimization, functionally graded materials and structure-property relationships of biogenic or bioinspired materials, be they of structured, graded, or composite design.

Keywords:

- bioinspired materials
- biomimesis
- nonclassical crystallization
- structure genesis
- emergence

an Open Access Journal by MDPI

Message from the Editor-in-Chief

Materials (ISSN 1996-1944) was launched in 2008. The journal covers twenty-five comprehensive topics: biomaterials, energy materials, advanced composites, advanced materials characterization, porous materials, manufacturing processes and systems, advanced nanomaterials and nanotechnology, smart materials, thin films and interfaces, catalytic materials, carbon materials, materials chemistry, materials physics, optics and photonics, corrosion, construction and building materials, materials simulation and design, electronic materials, advanced and functional ceramics and glasses, metals and alloys, soft matter, polymeric materials, quantum materials, mechanics of materials, green materials, general. *Materials* provides a unique opportunity to contribute high quality articles and to take advantage of its large readership.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Ei Compendex, CaPlus / SciFinder, Inspec, Astrophysics Data System, and other databases.

Journal Rank: JCR - Q2 (*Metallurgy & Metallurgical Engineering*) / CiteScore - Q2 (*Condensed Matter Physics*)
