### Message from the Guest Editors

The next world conference, the 20th WCNDT, will be held in Incheon, Korea from 27 to 31 May 2024. With the recent signs of the end of the COVID-19 pandemic, this conference that NDT industry practitioners from around the world have been waiting for is expected to attract 2000 delegates and over 200 exhibitors from all over the world to showcase the best of the latest innovations and technologies in the field. Among those topics, “Nondestructive Evaluation of Materials”, which is the title of this Special Issue, is a key topic that is highly related with all the fields of non-destructive testing and evaluation, and this is the reason we are producing this Special Issue.

We invite you to submit high-quality research as well as technical or review papers to this Special Issue, with an emphasis on innovative new and emerging technologies, including applications for a wide meaning of non-destructive evaluation of materials. If you need any further information about this Special Issue, please do not hesitate to contact us.
