Advances in Hybrid Biomaterials

Guest Editor:

Prof. Yuzhou Wu

 Huazhong University of Science and Technology, Wuhan, China
Max Planck Institute for Polymer Research, Mainz, Germany

Deadline for manuscript submissions: closed (28 February 2019)

Message from the Guest Editor

The main focus of the forthcoming Special Issue entitled "Advances in Hybrid Biomaterials" is to present a comprehensive overview of new developments in the field. It is intended to highlight recent advances in (i) controlled synthesis and characterization of hybrid biomaterials, including new conjugation strategies, supramolecular assemblies and environmental responsive properties and (ii) the applications of biohybrids materials in biomedical field (drug delivery/targeting, diagnostics, etc.), colloid science, materials science, and so on. Original research papers, brief communication reports, as well as review articles, are all welcome.

Please feel free to disseminate this announcement to any colleagues who might be interested. I would appreciate all contributors who will aid in the success of this Special Issue.

Editor-in-Chief

Prof. Dr. Maryam Tabrizian

 Department of Biomedical Engineering, Faculty of Medicine and Health Sciences, McGill University, Montreal, QC H3A 2B6, Canada
Faculty of Dentistry and Oral Health Sciences, McGill University, 3640 Rue University, Montreal, QC H3A 0C7, Canada

Message from the Editor-in-Chief

Materials (ISSN 1996-1944) was launched in 2008. The iournal covers twenty-five comprehensive topics: biomaterials, energy materials, advanced composites. advanced materials characterization, porous materials, manufacturing processes and svstems. advanced nanomaterials and nanotechnology, smart materials, thin films and interfaces, catalytic materials, carbon materials, materials chemistry, materials physics, optics and photonics, corrosion, construction and building materials. materials simulation and design, electronic materials, advanced and functional ceramics and glasses, metals and alloys, soft matter, polymeric materials, quantum materials, mechanics of materials, green materials, general. Materials provides a unique opportunity to contribute high quality articles and to take advantage of its large readership.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Ei Compendex, CaPlus / SciFinder, Inspec, Astrophysics Data System, and other databases.

Journal Rank: JCR - Q2 (Metallurgy and Metallurgical Engineering) / CiteScore - Q1 (Condensed Matter Physics)
