Engineering, School of
Engineering, Design and Built
Environment, Western Sydney
University, NSW, Australia

Dr. Maria Rashidi

Senior Lecturer, Centre for
Infrastructure Engineering,
Western Sydney University,
Kingswood, NSW 2747, Australia

Deadline for manuscript
submissions:

closed (20 December 2022)

Message from the Guest Editors

It is our pleasure to announce the publication of a Special issue of the Journal of *Materials* with the theme of “Emerging Trends in Structural Health Monitoring”, which is rapidly evolving and is embracing many new technologies in meeting the critical needs of our global ageing infrastructure. This is now a multidisciplinary area of research and development, and you are warmly invited to consider submitting your cutting-edge research for consideration. Some, but not all areas of focus include:

- Condition assessment of civil, mechanical, aerospace, and offshore structures, as well as connections of structural elements;
- Diagnostics of cultural heritage monuments;
- Testing of structures made of novel materials;
- Structural health monitoring (SHM) systems;
- Integration of non-destructive testing methods (e.g., guided waves, ground penetrating radar, acoustic emission, thermography);
- Advanced signal processing for NDT;
- Damage detection and damage imaging.

Special Issue

an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. Maryam Tabrizian

1. Department of Biomedical Engineering, Faculty of Medicine and Health Sciences, McGill University, Montreal, QC H3A 2B6, Canada

2. Faculty of Dentistry and Oral Health Sciences, McGill University, 3640 Rue University, Montreal, QC H3A 0C7, Canada

Message from the Editor-in-Chief

Materials (ISSN 1996-1944) was launched in 2008. The journal covers twenty-five comprehensive topics: biomaterials, energy materials, advanced composites, advanced materials characterization, porous materials, manufacturing processes and systems, advanced nanomaterials and nanotechnology, smart materials, thin films and interfaces, catalytic materials, carbon materials, materials chemistry, materials physics, optics and photonics, corrosion, construction and building materials, materials simulation and design, electronic materials, advanced and functional ceramics and glasses, metals and alloys, soft matter, polymeric materials, quantum materials, mechanics of materials, green materials, general. *Materials* provides a unique opportunity to contribute high quality articles and to take advantage of its large readership.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Ei Compendex, CaPlus / SciFinder, Inspec, Astrophysics Data System, and other databases.

Journal Rank: JCR - Q2 (*Metallurgy & Metallurgical Engineering*) / CiteScore - Q2 (*Condensed Matter Physics*)
