

Identification, Knowledge Engineering and Digital Modeling for Adaptive and Intelligent Control

Guest Editors:

Prof. Dr. Natalia Bakhtadze

Prof. Dr. Igor Yadykin

Prof. Dr. Andrei Torgashov

Prof. Dr. Nikolay Korgin

Deadline for manuscript
submissions:

closed (20 October 2022)

Message from the Guest Editors

The Special Issue aims to bring together scientists working in various branches of control theory to discuss manufacturing control problems, including: enterprise control and digital ecosystem creation, the development of identification theory and methodology, the related mathematical problems, parameter and nonparametric and structure identification and expert analysis, problems of selection and data analysis, control systems with identifier, modelling in intelligent systems, simulation procedures and software, digital identification, reinforcement learning, quantum modeling, intelligent model predictive control, predictive cognitive issues, problems of software quality for complex systems, and global network resources of support processes of modeling and control.

Editor-in-Chief

Informatics, De Montfort
University, The Gateway,
Leicester LE1 9BH, UK

Message from the Editor-in-Chief

The journal *Mathematics* publishes high-quality, refereed papers that treat both pure and applied mathematics. The journal highlights articles devoted to the mathematical treatment of questions arising in physics, chemistry, biology, statistics, finance, computer science, engineering and sociology, particularly those that stress analytical/algebraic aspects and novel problems and their solutions. One of the missions of the journal is to serve mathematicians and scientists through the prompt publication of significant advances in any branch of science and technology, and to provide a forum for the discussion of new scientific developments.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), RePEc, and other databases.

Journal Rank: JCR - Q1 (*Mathematics*) / CiteScore - Q1 (*General Mathematics*)
