Artificial Intelligence in Gastrointestinal Endoscopy: Disrupting Landscape in GI Practice

Guest Editors:

Prof. Dr. Miguel Mascarenhas

Dr. Hélder Cardoso

Dr. Ana Patricia Andrade

Prof. Dr. Guilherme Macedo

Deadline for manuscript submissions:

closed (30 November 2022)

Message from the Guest Editors

Gastrointestinal endoscopy (GI) plays a crucial role in several areas of digestive pathology, being an invaluable diagnostic and therapeutic tool. Therefore, there is growing interest in the use of AI in GI endoscopy. Several studies have demonstrated the enormous potential of using convolutional neural networks in various areas of GI endoscopy. The exponential development of the usefulness of AI in GI endoscopy requires consideration of its medium- and long-term impacts on clinical practice. Indeed, the advent of deep learning in the field of GI endoscopy, with its evolutionary character, could lead to a paradigm shift in clinical activity in this setting. In this Special Issue, we aim to showcase the state of the art of AI in the field of GI endoscopy, with examples of cutting-edge research being carried out in this particular field.

Given the high importance of AI in gastrointestinal endoscopy and research, the journal Medicina is launching this Special Issue.

Editor-in-Chief

Prof. Dr. Edgaras Stankevičius Medical Academy, Lithuanian University of Health Sciences, Kaunas, Lithuania

Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Medicina* (ISSN: 1648-9144). *Medicina* is an open access, peer-reviewed scientific journal that publishes original articles, critical reviews, research notes, and short communications on medicine. The scientific community and the general public can access the content free of charge as soon as it is published.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed,

MEDLINE, PMC, and other databases.

Journal Rank: CiteScore - Q2 (*General Medicine*)
