Department of Food Engineering,
Integrated Regional University of
Alto Uruguay and Missions,
Erechim, Brazil

Deadline for manuscript
submissions:

20 August 2024

Message from the Guest Editor

Dear Colleagues,

This Special Issue will present a collection of the latest developments and recent scientific advances in membrane technology for food applications. It aims to collect original research papers and reviews on outstanding and novel works that focus on performance, processes, and food applications.

This prominent Special Issue will consider articles from the full breadth of evidence, from original research papers and reviews to perspectives related to membrane technology for food applications.

Areas of interest include, but are not limited to, the following:

Membrane materials;

Membrane preparation and characterization;

Membrane processes;

Modeling and simulation of membrane process;

Food process.

Manuscript submission deadline is 30 April 2024.

Prof. Dr. Juliana Steffens

Message from the Editor-in-Chief

You are cordially invited to contribute a research article or a comprehensive review for consideration and publication in *Membranes* (ISSN 2077-0375).

Membranes is an international, peer-reviewed open access journal of membrane technology published monthly online by MDPI. The journal covers the broad aspects of the science and technology of both biological and non-biological membranes, including membrane dynamics and the preparation and characterization of membranes and their applications in water, environment, energy, and food industries. Articles contributing to better understanding of transport processes in all types of membranes are also welcome. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, PubMed, PMC, CAPlus / SciFinder, Inspec, and other databases.

Journal Rank: JCR - Q2 (*Polymer Science*) / CiteScore - Q2 (*Chemical Engineering (miscellaneous)*)
