Message from the Guest Editor

Dear Colleagues,

This Special Issue will mainly consist of selected papers presented at the 4th Metabolomics Workshop (<http://bioanalysis.web.auth.gr/metabolomics/>). Papers applying metabolomics in life and plant/food/nutrition sciences are also welcomed on this special issue, selected examples include, but are not limited to:

- Human growth, healthy ageing biomarker discovery
- Disease biomarkers: diagnostic/prognostic, patient stratification
- Food authenticity/geographical origin verification
- Investigation of gut microbiota host-guest interactions

Dr. Helen G. Gika

Guest Editor

an Open Access Journal by MDPI

Editor-in-Chief

Dr. Amedeo Lonardo

1. Formerly Director of the Simple Operating Unit "Metabolic Syndrome", Azienda Ospedaliero-Universitaria, 41126 Modena, Italy
2. Formerly Professor of Internal Medicine, School of Specialization of Allergy and Clinical Immunology, University of Modena and Reggio Emilia, 41121 Modena, Italy

Message from the Editor-in-Chief

The metabolome is the result of the combined effects of genetic and environmental influences on metabolic processes. Metabolomic studies can provide a global view of metabolism and thereby improve our understanding of the underlying biology. Advances in metabolomic technologies have shown utility for elucidating mechanisms which underlie fundamental biological processes including disease pathology. *Metabolites* is proud to be part of the development of metabolomics and we look forward to working with many of you to publish high quality metabolomic studies.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPUS / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Biochemistry & Molecular Biology*) / CiteScore - Q2 (*Endocrinology, Diabetes and Metabolism*)
