

## Latest Review Papers on Antimicrobial Agents and Resistance 2023

Guest Editor:

**Prof. Dr. Maurizio Ciani**

Department of Life and  
Environmental Science,  
Polytechnic University of Marche,  
Ancona, Italy

Deadline for manuscript  
submissions:

**closed (15 August 2023)**

### Message from the Guest Editor

Dear Colleagues,

This Special Issue aims to collect high-quality review papers in all fields of Antimicrobial Agents and Resistance. We encourage researchers to contribute review papers (preferably full-length, comprehensive reviews) highlighting the latest developments in the field of Antimicrobial Agents and Resistance, or to invite relevant experts and colleagues to do so.

Keywords: antimicrobial agents; antibacterial agents; antifungal agents; antiparasitic agents; resistance properties of microorganisms

an Open Access Journal by MDPI

Systems Biology, UFZ-Helmholtz  
Centre for Environmental  
Research, 04318 Leipzig,  
Germany

## Message from the Editor-in-Chief

"Microorganism" merges the idea of the very small with the idea of the evolving reproducing organism is a unifying principle for the discipline of microbiology. Our journal recognizes the broadly diverse yet connected nature of microorganisms and provides an advanced publishing forum for original articles from scientists involved in high-quality basic and applied research on any prokaryotic or eukaryotic microorganism, and for research on the ecology, genomics and evolution of microbial communities as well as that exploring cultured microorganisms in the laboratory.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), PubMed, PMC, PubAg, CAPlus / SciFinder, AGRIS, and other databases.

**Journal Rank:** JCR - Q2 (*Microbiology*) / CiteScore - Q2 (*Microbiology (medical)*)
