Advances in Parvovirus Infection of Pets and Waterfowl

Guest Editor:

Dr. Chuanfeng Li

Shanghai Veterinary Research
Institute, Chinese Academy of
Agricultural Sciences, Shanghai
200241, China

Deadline for manuscript
submissions:

31 August 2025

Message from the Guest Editor

This Special Issue of *Microorganisms* aims to provide a scientific platform for scientists performing fundamental and applied research related to parvoviruses. This Special Issue of *Microorganisms* will include original research, short communications, and reviews on parvoviruses, which focus on the discovery and characterization of new parvoviruses, epidemiology, virus structure, genome composition, replication mechanism, genetic characterization, phylogeny, detection methods, parvovirus interactions with host cells, etc. In addition, some papers describing applied research in vaccines and antiviral biological products, including cytokines and antibodies, as well as diagnostic preparations, are also encouraged.

Research, 04318 Leipzig,
Germany

Message from the Editor-in-Chief

"Microorganism" merges the idea of the very small with the idea of the evolving reproducing organism is a unifying principle for the discipline of microbiology. Our journal recognizes the broadly diverse yet connected nature of microorganisms and provides an advanced publishing forum for original articles from scientists involved in high-quality basic and applied research on any prokaryotic or eukaryotic microorganism, and for research on the ecology, genomics and evolution of microbial communities as well as that exploring cultured microorganisms in the laboratory.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, PubAg, CAPlus / SciFinder, AGRIS, and other databases.

Journal Rank: JCR - Q2 (Microbiology) / CiteScore - Q1 (Microbiology (medical))
