# **Gut Microorganisms of Aquatic Animals**

Guest Editor:

#### Prof. Dr. Konstantinos Ar. Kormas

Department of Ichthyology & Aquatic Environment, Faculty of Agricultural Sciences, University of Thessaly, 384 46 Volos, Greece

Deadline for manuscript submissions: closed (31 May 2019)

# Message from the Guest Editor

Dear Colleagues,

The Special Issue entitled "Gut Microorganisms of Aquatic Animals" aims to present recent research on any aspect of aquatic animal gut microbiology. Some of its focal points include, but are not limited to, the following:

- Gut microbes of animals living in extreme aquatic environments
- Aquatic animal ontogeny and microbial succession
- Gut microbiology of farmed aquatic animals
- Gut Archaea and microscopic eukaryotes of aquatic animals
- Novel methodologies for investigating gut microbes of aquatic animals
- Pollution and other environmental stress factors on gut microbes of aquatic animals
- Insights into the hologenome theory of evolution of aquatic animals

Prof. Dr. Konstantinos Kormas *Guest Editor*

### Message from the Editor-in-Chief

"Microorganism" merges the idea of the very small with the idea of the evolving reproducing organism is a unifying principle for the discipline of microbiology. Our journal recognizes the broadly diverse yet connected nature of microorganisms and provides an advanced publishing forum for original articles from scientists involved in highquality basic and applied research on any prokaryotic or eukaryotic microorganism, and for research on the ecology, genomics and evolution of microbial communities as well as that exploring cultured microorganisms in the laboratory.

# **Author Benefits**

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions. **High Visibility:** indexed within Scopus, SCIE (Web of Science), PubMed, PMC, PubAg, CAPlus / SciFinder, AGRIS, and other databases. **Journal Rank:** JCR - Q2 (*Microbiology*) / CiteScore - Q2 (*Microbiology (medical)*)
