Deadline for manuscript
submissions:

31 December 2024

Message from the Guest Editor

Dear Colleagues,

This Special Issue is the continuation of our previous edition entitled "Latest Review Papers in Virology 2023".

This Special Issue aims to collect high-quality review papers in all fields of virology. We encourage researchers from related fields to contribute review papers that highlight the latest developments in virology, or to invite relevant experts and colleagues to do so. Full-length comprehensive reviews are preferred.

Message from the Editor-in-Chief

"Microorganism" merges the idea of the very small with the idea of the evolving reproducing organism is a unifying principle for the discipline of microbiology. Our journal recognizes the broadly diverse yet connected nature of microorganisms and provides an advanced publishing forum for original articles from scientists involved in high-quality basic and applied research on any prokaryotic or eukaryotic microorganism, and for research on the ecology, genomics and evolution of microbial communities as well as that exploring cultured microorganisms in the laboratory.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, PubAg, CAPlus / SciFinder, AGRIS, and other databases.

Journal Rank: JCR - Q2 (*Microbiology*) / CiteScore - Q2 (*Microbiology (medical)*)
