Latest Review Papers in Gut Microbiota 2023

Guest Editor:

Dr. Pramod Gopal

1. The New Zealand Institute for Plant and Food Research Limited (PFR), Private Bag 11600, Palmerston North 4442, New Zealand
2. Riddet Institute, Massey University, Palmerston North 4442, New Zealand

Message from the Guest Editor

This Special Issue aims to collect high-quality review papers in all fields of gut microbiota. We encourage researchers from related fields to contribute review papers highlighting the latest developments in gut microbiota, or to invite relevant experts and colleagues to do so. Full-length comprehensive reviews will be preferred.

Deadline for manuscript submissions:

closed (31 December 2023)

Research, 04318 Leipzig,
Germany

Message from the Editor-in-Chief

"Microorganism" merges the idea of the very small with the idea of the evolving reproducing organism is a unifying principle for the discipline of microbiology. Our journal recognizes the broadly diverse yet connected nature of microorganisms and provides an advanced publishing forum for original articles from scientists involved in high-quality basic and applied research on any prokaryotic or eukaryotic microorganism, and for research on the ecology, genomics and evolution of microbial communities as well as that exploring cultured microorganisms in the laboratory.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, PubAg, CAPlus / SciFinder, AGRIS, and other databases.

Journal Rank: JCR - Q2 (*Microbiology*) / CiteScore - Q2 (*Microbiology (medical)*)
