Department of Health Sciences,  
University of Milan, 20142 Milan,  
Italy

Deadline for manuscript  
submissions:

**30 September 2024**

### Message from the Guest Editor

Dear Colleagues,

This Special Issue is the continuation of our previous special issue "Latest Review Papers in Medical Microbiology 2023".

It aims to collect high-quality review papers in all the fields of medical microbiology. We encourage researchers from related fields to contribute review papers highlighting the latest developments in medical microbiology, or to invite other relevant experts and colleagues to do so. Full length comprehensive reviews will be preferred.

Prof. Dr. Antonella d'Arminio Monforte  
*Guest Editor*

an Open Access Journal by MDPI

## Message from the Editor-in-Chief

"Microorganism" merges the idea of the very small with the idea of the evolving reproducing organism is a unifying principle for the discipline of microbiology. Our journal recognizes the broadly diverse yet connected nature of microorganisms and provides an advanced publishing forum for original articles from scientists involved in high-quality basic and applied research on any prokaryotic or eukaryotic microorganism, and for research on the ecology, genomics and evolution of microbial communities as well as that exploring cultured microorganisms in the laboratory.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), PubMed, PMC, PubAg, CAPlus / SciFinder, AGRIS, and other databases.

**Journal Rank:** JCR - Q2 (*Microbiology*) / CiteScore - Q2 (*Microbiology (medical)*)
