Deadline for manuscript
submissions:

closed (31 July 2020)

Message from the Guest Editors

Dear Colleagues,

Zoonosis is increasingly being recognized as a public health implication of *Mycobacterium avium* ss. *paratuberculosis* (MAP). The aim of this Special Issue of *Microorganisms* is to provide MAP researchers with a platform for presenting information about MAP that relates to animal health, food safety, environmental exposure, and human health.

To that end, we cordially invite you to submit a research article, review article, or short communication related to one or more of the various aspects of MAP infection: host–MAP interactions, epidemiology, diagnostics, therapeutics, and prevention.

Prof. Dr. Leonardo A Sechi

Dr. Coad Thomas Dow

Research, 04318 Leipzig,
Germany

Message from the Editor-in-Chief

"Microorganism" merges the idea of the very small with the idea of the evolving reproducing organism is a unifying principle for the discipline of microbiology. Our journal recognizes the broadly diverse yet connected nature of microorganisms and provides an advanced publishing forum for original articles from scientists involved in high-quality basic and applied research on any prokaryotic or eukaryotic microorganism, and for research on the ecology, genomics and evolution of microbial communities as well as that exploring cultured microorganisms in the laboratory.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, PubAg, CAPlus / SciFinder, AGRIS, and other databases.

Journal Rank: JCR - Q2 (*Microbiology*) / CiteScore - Q2 (*Microbiology (medical)*)
