Message from the Guest Editor

Dear colleagues,

The key objective of the 1st International Conference Mines of the Future is to share the latest developments on mining expertise, activities, developments and research that support mines of the future. The main topics will be

- Technological advances and innovation
- Best practices and benchmarking
- Responsible and sustainable mining

We invite professionals from the mining industry and practitioners from consulting companies, equipment suppliers and software providers, people from research institutions and government agencies as well as academic scholars and researchers to attend this conference. We are cordially inviting you to join us at the conference and also to submit your manuscript to the Special Issue.

Message from the Editor-in-Chief

Minerals welcomes submissions that report basic and applied research in mineralogy. Research areas of traditional interest are mineral deposits, mining, mineral processing and environmental mineralogy. The journal footprint also includes novel uses of elemental and isotopic analyses of minerals for petrology, geochronology and thermochronology, thermobarometry, ore genesis and sedimentary provenance. Contributions are encouraged in emerging research areas such as applications of quantitative mineralogy to the oil and gas, manufacturing, forensic science, climate change, geohazard and health sectors.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), GeoRef, CaPlus / SciFinder, Inspec, Astrophysics Data System, AGRIS, and other databases.

Journal Rank: JCR - Q2 (*Mining & Mineral Processing*) / CiteScore - Q2 (*Geology*)
