

an Open Access Journal by MDPI

Fundamentals and Frontiers in Mineralogy

Guest Editor:

Prof. Dr. Paul Sylvester

Endowed Pevehouse Chair, Department of Geosciences, Texas Tech University, Lubbock, TX 79409-1053, USA

Deadline for manuscript submissions:

closed (30 September 2017)

Message from the Guest Editor

Dear Colleagues,

We plan to publish a Special Issue of *Minerals* in order to present a broad overview of research in mineralogy. Authors will be the Editorial Board members, or those invited by the editorial office and the Editor-in-Chief. Both original research articles and comprehensive review papers are welcome, especially those that illustrate research frontiers. The papers would be published, free of charge, in Open Access after peer-review. The goal is to promote interest in the journal, particuarly to a wider readership, and encourage high-quality submissions in both traditional and non-traditional applications of research in mineralogy.

Editor-in-Chief

Prof. Dr. Leonid DubrovinskyBayerisches Geoinstitut, University Bayreuth, D-95440 Bayreuth, Germany

Message from the Editor-in-Chief

Minerals welcomes submissions that report basic and applied research in mineralogy. Research areas of traditional interest are mineral deposits, mining, mineral processing and environmental mineralogy. The journal footprint also includes novel uses of elemental and isotopic analyses of minerals for petrology, geochronology and thermochronology, thermobarometry, ore genesis and sedimentary provenance. Contributions are encouraged in emerging research areas such as applications of quantitative mineralogy to the oil and gas, manufacturing, forensic science, climate change, geohazard and health sectors.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), GeoRef,

CaPlus / SciFinder, Inspec, Astrophysics Data System, AGRIS, and other databases.

Journal Rank: JCR - Q2 (*Mining & Mineral Processing*) / CiteScore - Q2 (*Geology*)
