Metal-Catalyzed Synthesis

Guest Editor:

Prof. Dr. Bartolo Gabriele

Laboratory of Industrial and Synthetic Organic Chemistry (LISOC), Department of Chemistry and Chemical Technologies, University of Calabria, Via Pietro Bucci, 12/C, 87036 Arcavacata di Rende, Italy

Deadline for manuscript submissions:

closed (31 October 2021)

Message from the Guest Editor

Dear Colleagues,

This Special Issue is devoted to metal-catalyzed synthesis, which is of one of the most important tools in modern synthetic organic chemistry. In fact, under the catalytic action of a metal center, stabilized by suitable ligands, different small molecules can be sequentially activated to afford complex, high-value added compounds in one synthetic step. Although enormous progress has been made in this field during the last few decades, this kind of chemistry is still very attractive and important, and will continue to attract the interest of chemists, both in academia and industry around the world.

Message from the Editor-in-Chief

Molbank is a unique electronic journal that rapidly publishes very short articles, which typically encompass one compound per paper ("short notes") as well as "communications". The aim of this format is to prevent potentially useful scientific information from being lost. In many research groups, there are unpublished compounds that are available, which do not truly fit into a full paper or even a conventional short paper, e.g. because the main work in a series of compounds has already been published. Nevertheless, somebody else might be interested in just this particular compound. Molbank offers an excellent platform for preserving the aforesaid kind of information.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, ESCI (Web of Science), Reaxys, CAPlus / SciFinder, and other databases.

Rapid Publication: manuscripts are peer-reviewed and a first decision is provided to authors approximately 15.5 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the second half of 2023).
