1st CQE Days Meeting: 44 Years Connecting People and Chemistry

Guest Editors:

Dr. Nuno Neng

Dr. Tânia S. Morais

Dr. Marta M. Alves

Dr. Ana Paula Da Costa Ribeiro

Dr. Gonçalo J. Justino

Dr. Karina Shimizu

Dr. Carlos Eduardo Sabino

Bernardes

Ms. Luciana Silva

Deadline for manuscript submissions:

closed (30 April 2020)

Message from the Guest Editors

Dear Colleagues,

The Centro de Química Estrutural (CQE) is one of the oldest chemical research units in Portugal. It is recognized as one of the best of European research centers, with collaborations established with the top research centers and universities across Europe, the USA, and Japan, just to mention some.

This Special Issue will cover the research performed at Centro de Química Estrutural (CQE) mostly during the 1st edition of the CQE Days meeting, with the intent of sharing information about the research work carried.

The list of topics is not confined to what is presented in the meeting, and manuscripts discussing advances in methodologies and effects on chemical or biological processes, including experimental, computational, and/or simulation studies are welcomed. Synthesis, catalysis, materials, nanochemistry, chemistry for the environment, energy, and medicinal and biological studies are topics of interest to this issue.

Dr. Nuno Neng

Editor-in-Chief

Prof. Dr. Thomas J. Schmidt Institute of Pharmaceutical Biology and Phytochemistry, University of Münster, Corrensstrasse 48, D-48149 Münster, Germany

Message from the Editor-in-Chief

As the premier open access journal dedicated to experimental organic chemistry, and now in its 25th year of publication, the papers published in *Molecules* span from classical synthetic methodology to natural product isolation and characterization, as well as physicochemical studies and the applications of these molecules as pharmaceuticals, catalysts and novel materials. Pushing the boundaries of the discipline, we invite papers on multidisciplinary topics bridging biochemistry, biophysics and materials science, as well as timely reviews and topical issues on cutting edge fields in all these areas.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Reaxys, CaPlus / SciFinder, MarinLit, AGRIS, and other databases.

Journal Rank: JCR - Q2 (*Chemistry, Multidisciplinary*) / CiteScore - Q1 (*Chemistry (miscellaneous*))
