Message from the Collection Editors

Dear Colleague,

As the guest editors of a timely, topical and high-quality collection titled “Early-Career Researchers in Chemistry” in *Molecules*, we are delighted to announce this exciting initiative, and we are particularly encouraging “Early-Career Researchers” in all areas of chemistry around the world to take part. This collection will bring together the latest high-quality contributions from early-career researchers in chemistry actively working in all fields of chemistry at the early stages of their careers (i.e. within the first 5 years of their independent career).

You are welcome to visit the [website](#) and submit your paper [here](#). Any questions please feel free to contact Larry Li (larry.li@mdpi.com), the managing editor of the topical collection. We look forward to receiving your contribution.

Message from the Editor-in-Chief

As the premier open access journal dedicated to experimental organic chemistry, and now in its 25th year of publication, the papers published in *Molecules* span from classical synthetic methodology to natural product isolation and characterization, as well as physicochemical studies and the applications of these molecules as pharmaceuticals, catalysts and novel materials. Pushing the boundaries of the discipline, we invite papers on multidisciplinary topics bridging biochemistry, biophysics and materials science, as well as timely reviews and topical issues on cutting edge fields in all these areas.
