### Message from the Guest Editor

Dear Colleagues,

It is our pleasure to announce a Special Issue entitled “Feature Papers in Nanomedicine”. This is a collection of important high-quality papers (original research articles or comprehensive review papers) published in an open access format by Editorial Board Members or prominent scholars invited by the Editorial Office and the Guest Editor.

This Special Issue aims to discuss new knowledge or new cutting-edge developments in the nanomedicine research field through selected works, in the hope of making a great contribution to the community. We aim for this Special Issue to be an excellent forum for disseminating research findings, as well as sharing innovative ideas in the field.

## Message from the Editor-in-Chief

As the premier open access journal dedicated to experimental organic chemistry, and now in its 25th year of publication, the papers published in *Molecules* span from classical synthetic methodology to natural product isolation and characterization, as well as physicochemical studies and the applications of these molecules as pharmaceuticals, catalysts and novel materials. Pushing the boundaries of the discipline, we invite papers on multidisciplinary topics bridging biochemistry, biophysics and materials science, as well as timely reviews and topical issues on cutting edge fields in all these areas.
