# **Psychoactive Natural Products**

Guest Editor:

### Dr. Wayne W. Harding

Department of Chemistry, Hunter College, New York, NY, USA

Deadline for manuscript submissions:

closed (31 December 2019)

### **Message from the Guest Editor**

Psychoactive substances alter ones mental state, leading in perception, mood, changes behavior, conciousness. Psychoactive compounds have been identified from several natural sources, and these psychoactive natural products have found uses as probes for central nervous system (CNS) receptors and as leads for drug discovery. Furthermore, pharmacological studies on psychoactive natural products and their natural sources enlightened the fundamental have mechanistic underpinnings mediating the exhibited psychoactivity. This Special Issue aims to review recent examples on the structure elucidation. synthesis pharmacological assessments on psychoactive natural products.

## **Message from the Editor-in-Chief**

As the premier open access journal dedicated to experimental organic chemistry, and now in its 25th year of publication, the papers published in *Molecules* span from classical synthetic methodology to natural product isolation and characterization, as well as physicochemical studies and the applications of these molecules as pharmaceuticals, catalysts and novel materials. Pushing the boundaries of the discipline, we invite papers on multidisciplinary topics bridging biochemistry, biophysics and materials science, as well as timely reviews and topical issues on cutting edge fields in all these areas.

#### **Author Benefits**

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Reaxys, CaPlus / SciFinder, MarinLit, AGRIS, and other databases.

**Journal Rank:** JCR - Q2 (*Chemistry, Multidisciplinary*) / CiteScore - Q1 (*Chemistry (miscellaneous*))
