

Special Issue Dedicated to Late Professor Takuo Okuda, “Tannins and Related Polyphenols Revisited: Chemistry, Biochemistry and Biological Activities”

Guest Editors:

Prof. Dr. Hideyuki Ito

Faculty of Health and Welfare
Science, Okayama Prefectural
University, Kuboki, Soja,
Okayama 719- 1197, Japan

Prof. Dr. Tsutomu Hatano

Graduate School of Medicine,
Dentistry and Pharmaceutical
Sciences, Okayama University,
Tsushima, Okayama 700-8530,
Japan

Prof. Dr. Takashi Yoshida

Faculty of Pharmaceutical
Sciences, Okayama University,
Tsushima-naka, Okayama 700-
8530, Japan

Deadline for manuscript
submissions:

closed (30 June 2018)

Message from the Guest Editors

Dear Colleagues,

Molecules is pleased to announce a memorial Special Issue, dedicated to Emeritus Professor Dr. Takuo Okuda at Okayama University, Japan, on the occasion of his passing away in December 2016, for his outstanding contribution in the research field of vegetable tannins and related polyphenols.

Prof. Okuda (born in 1927) was Professor of Medicinal Plants Chemistry at the Okayama University, in Japan, from 1970 to 1993. He was one of the pioneers of the chemistry of hydrolyzable tannins and related polyphenols in traditional medicinal plants in Japan, China, and South-East Asian countries. His prolific scientific activity is documented by more than 300 papers concerning the isolation and characterization of tannins and related polyphenolics in many plant species, including their diverse pharmacological functions beneficial to human health care.

This memorial Special Issue welcomes submission of previously unpublished manuscripts (original researches or reviews) on the investigation of tannins and biologically active polyphenolic compounds isolated from plants.

Prof. Dr. Hideyuki Ito
Prof. Dr. Tsutomu Hatano
Emeritus Prof. Dr. Takashi Yoshida
Guest Editors

Special Issue

an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. Thomas J. Schmidt

Biology and Phytochemistry,
University of Münster,
Corrensstrasse 48, D-48149
Münster, Germany

Message from the Editor-in-Chief

As the premier open access journal dedicated to experimental organic chemistry, and now in its 25th year of publication, the papers published in *Molecules* span from classical synthetic methodology to natural product isolation and characterization, as well as physicochemical studies and the applications of these molecules as pharmaceuticals, catalysts and novel materials. Pushing the boundaries of the discipline, we invite papers on multidisciplinary topics bridging biochemistry, biophysics and materials science, as well as timely reviews and topical issues on cutting edge fields in all these areas.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [MEDLINE](#), [PMC](#), [Reaxys](#), [CaPlus / SciFinder](#), [MarinLit](#), [AGRIS](#), and [other databases](#).

Journal Rank: JCR - Q2 (*Chemistry, Multidisciplinary*) / CiteScore - Q1 (*Chemistry (miscellaneous)*)
