Dear Colleagues,

On October 1, 1872, following the transfer of the "Ecole Supérieure de Pharmacie de Strasbourg", the "Ecole Supérieure de Pharmacie de Nancy" was created. This Special Issue therefore aims to mark the 150<sup>th</sup> anniversary of the creation of the "Ecole Supérieure de Pharmacie de Nancy" (which will become a Faculty in 1920).

This Special Issue may include original research, review as well as comment articles on research works that have been carried out at the "Faculté de Pharmacie de Nancy" during its 150 years.

As the premier open access journal dedicated to experimental organic chemistry, and now in its 25th year of publication, the papers published in *Molecules* span from classical synthetic methodology to natural product isolation and characterization, as well as physicochemical studies and the applications of these molecules as pharmaceuticals, catalysts and novel materials. Pushing the boundaries of the discipline, we invite papers on multidisciplinary topics bridging biochemistry, biophysics and materials science, as well as timely reviews and topical issues on cutting edge fields in all these areas.
