Deadline for manuscript  
submissions:

**closed (31 January 2015)**

### Message from the Guest Editor

Dear Colleagues,

This special issue of *Molecules* is dedicated to Bioconjugations. Contributions that describe methods for performing selective bioconjugations, materials used for bioconjugations, and methods for characterizing bioconjugates are welcome. This field continues to grow as the variety of biomolecules used for bioconjugation increases. Furthermore, as new materials are explored as biological probes and modifiers, novel methods are needed to link these materials to biomolecules and to characterize the resulting conjugates. I encourage authors to submit research papers and comprehensive reviews for this Special Issue. I hope that the topics covered will reflect the intrinsically interdisciplinary nature of this field.

Dr. Scott Reed

*Guest Editor*

an Open Access Journal by MDPI

## Editor-in-Chief

### Prof. Dr. Thomas J. Schmidt

Institute of Pharmaceutical  
Biology and Phytochemistry,  
University of Münster,

Münster, Germany

## Message from the Editor-in-Chief

As the premier open access journal dedicated to experimental organic chemistry, and now in its 25th year of publication, the papers published in *Molecules* span from classical synthetic methodology to natural product isolation and characterization, as well as physicochemical studies and the applications of these molecules as pharmaceuticals, catalysts and novel materials. Pushing the boundaries of the discipline, we invite papers on multidisciplinary topics bridging biochemistry, biophysics and materials science, as well as timely reviews and topical issues on cutting edge fields in all these areas.

## Author Benefits

**Open Access:** free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

**High Visibility:** indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [MEDLINE](#), [PMC](#), [Reaxys](#), [CaPlus / SciFinder](#), [MarinLit](#), [AGRIS](#), and [other databases](#).

**Journal Rank:** JCR - Q2 (*Chemistry, Multidisciplinary*) / CiteScore - Q1 (*Chemistry (miscellaneous)*)
