submissions:

closed (31 December 2020)

Message from the Guest Editors

In 2020, we are celebrating the 25th anniversary of our journal *Molecules*. To date, the journal has published more than 20,000 papers, and the journal website attracts 115,000 monthly visits and more than 395,000 monthly page-views. Our sincerest thanks go to our readers, innumerable authors, anonymous peer reviewers, editors, and all the people working in some way for the journal who have joined efforts for years. Without your help, we would never have achieved this. To mark this important milestone, a Special Issue entitled “Recent Advances in Inorganic Chemistry” is being launched. This Special Issue collects communications, full papers, and high-quality review papers in the inorganic chemistry research fields. We kindly encourage all research groups covering various inorganic areas to make contributions to this Special Issue.

an Open Access Journal by MDPI

Editor-in-Chief

Message from the Editor-in-Chief

As the premier open access journal dedicated to experimental organic chemistry, and now in its 25th year of publication, the papers published in *Molecules* span from classical synthetic methodology to natural product isolation and characterization, as well as physicochemical studies and the applications of these molecules as pharmaceuticals, catalysts and novel materials. Pushing the boundaries of the discipline, we invite papers on multidisciplinary topics bridging biochemistry, biophysics and materials science, as well as timely reviews and topical issues on cutting edge fields in all these areas.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [MEDLINE](#), [PMC](#), [Reaxys](#), [CaPlus / SciFinder](#), [MarinLit](#), [AGRIS](#), and [other databases](#).

Journal Rank: JCR - Q2 (*Chemistry, Multidisciplinary*) / CiteScore - Q1 (*Chemistry (miscellaneous)*)
