Message from the Guest Editors

Dear Colleagues,

It is our great pleasure to invite you to submit an article for a high-profile Special Issue on “Photoresponsive Polymers” to be published in *Molecules*. This Special Issue aims to highlight research on light-induced chemical and physical processes of polymeric and polymer-based composite materials in both the bulk films and solutions. This includes, but is not limited to, new experimental and theoretical methodologies in highly interdisciplinary areas, such as photochemistry, photophysics, photocontrolled material processing and applications. Reviews, research articles and perspectives from experts in the field are equally welcome.

Prof. Dr. Haifeng Yu

Dr. Arri Priimägi

Prof. Dr. Xiaogong Wang

Guest Editor

Deadline for manuscript submissions:

closed (30 April 2017)

Message from the Editor-in-Chief

As the premier open access journal dedicated to experimental organic chemistry, and now in its 22nd year of publication, the papers published in *Molecules* span from classical synthetic methodology to natural product isolation and characterization, as well as physicochemical studies and the applications of these molecules as pharmaceuticals, catalysts and novel materials. Pushing the boundaries of the discipline, we invite papers on multidisciplinary topics bridging biochemistry, biophysics and materials science, as well as timely reviews and topical issues on cutting edge fields in all these areas.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High visibility: indexed by the Science Citation Index Expanded (Web of Science), MEDLINE (PubMed) and other databases.

Rapid publication: manuscripts are peer-reviewed and a first decision provided to authors approximately 14 days after submission; acceptance to publication is undertaken in 4.96 days (median values for papers published in the first six months of 2018).
