submissions:*

**closed (30 April 2017)**

#### Message from the Guest Editors

Dear Colleagues,

It is our great pleasure to invite you to submit an article for a high-profile Special Issue on “Photoresponsive Polymers” to be published in *Molecules*. This Special Issue aims to highlight research on light-induced chemical and physical processes of polymeric and polymer-based composite materials in both the bulk films and solutions. This includes, but is not limited to, new experimental and theoretical methodologies in highly interdisciplinary areas, such as photochemistry, photophysics, photocontrolled material processing and applications. Reviews, research articles and perspectives from experts in the field are equally welcome.

Prof. Dr. Haifeng Yu

Dr. Arri Priimägi

Prof. Dr. Xiaogong Wang

*Guest Editor*

#### Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High visibility:** indexed by the Science Citation Index Expanded (Web of Science), MEDLINE (PubMed) and other databases.

**Rapid publication:** manuscripts are peer-reviewed and a first decision provided to authors approximately 18 days after submission; acceptance to publication is undertaken in 4 days (median values for papers published in this journal in first half of 2017).

**Sections:** published in twelve topical sections.
