Deadline for manuscript submissions:
15 December 2024

Message from the Guest Editors

We are organizing a Special Issue focused on Nutritional Survey and Dietary Assessment in the Age of Big Data. In this Special Issue of Nutrients, we welcome original research articles, animal and clinical studies, as well as review articles on the current state of research. This Special Issue, entitled "Nutritional Survey and Dietary Assessment in the Age of Big Data", aims to examine the forefront of this incorporation, highlighting the approaches, challenges, and opportunities presented. The introduction of big data technologies provides an unparalleled ability to process and analyze extensive datasets, thereby empowering researchers and practitioners to determine complex patterns, trends, and associations with dietary habits and nutritional health. This Special Issue calls for contributions that delve into the development and use of big data analytics in the context of nutrition surveys, dietary intake assessments, and their implications for public health policy and individual dietary recommendations.

Message from the Editorial Board

Nutrients is an on-line open access journal that was first published in 2009. *Nutrients* adheres to rigorous peer-review and editorial processes and publishes only high quality manuscripts that address important issues related to the impacts of nutrients on human health. The Impact Factor of *Nutrients* has risen rapidly since its establishment and it is now ranked in the first quartile of journals publishing in the field of nutrition and dietetics research.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.
High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Embase, PubAg, AGRIS, and other databases.
Journal Rank: JCR - Q1 (*Nutrition & Dietetics*) / CiteScore - Q1 (*Nutrition and Dietetics*)
