Message from the Guest Editors

The nutritional management of blood glucose levels is a strategic target in the control of hyperglycemia. Chronic hyperglycemia can induce inflammation, insulin resistance, oxidative stress, and endothelial dysfunction, among others. All this can trigger diseases such as type 2 diabetes and its complications or cardiovascular diseases. Glucose homeostasis (GH) and nutrition play a crucial role not only in disease pathogenesis and control, but also in human aging. Expanding knowledge about GH in relation to both situations through diet is key on a global level. For these reasons, this Special Issue welcomes original research articles presenting quantitative or qualitative data, but also reviews that highlight the core values of GH: disease-preventing and disease-treating, health-promoting, basic metabolism knowledge and the encouragement of healthy aging.

Considering the success of the previous Special Issue, "Nutrition and Glucose Homeostasis", we are pleased to announce that we are launching a second Special Issue on this topic.

an Open Access Journal by MDPI

Editors-in-Chief

Prof. Dr. Lluís Serra-Majem

1. Centro de Investigación Biomédica en Red Fisiopatología de la Obesidad y la Nutrición (CIBEROBN), Institute of Health Carlos III, 28029 Madrid, Spain
2. Research Institute of Biomedical and Health Sciences (IUIBS), University of Las Palmas de Gran Canaria, 35001 Las Palmas, Spain
3. Preventive Medicine Service, Centro Hospitalario Universitario Insular Materno Infantil (CHUIMI), Canarian Health Service, 35016 Las Palmas, Spain

Prof. Dr. Maria Luz Fernandez

Department of Nutritional Sciences, University of Connecticut, Storrs, CT 06269, USA

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Embase, PubAg, AGRIS, and other databases.

Journal Rank: JCR - Q1 (*Nutrition & Dietetics*) / CiteScore - Q1 (*Nutrition and Dietetics*)
