E-health: A Novel Approach for Dietary Interventions

Guest Editors:

Dr. Megan Whatnall

Prof. Dr. Clare Collins

Dr. Erin Clarke

Deadline for manuscript
submissions:

closed (28 February 2023)

Message from the Guest Editors

In order to be effective, dietary interventions must consider an individual or groups' desired goals and motivations, health status, current eating habits and dietary intake, as well as the methods of delivery required to optimise intervention or treatment effectiveness and cost effectiveness. The delivery methods for dietary interventions must be targeted and tailored to suit specific needs, such as geographical location, accessibility of resources, time and costs. eHealth offers a novel approach to enhance the effectiveness and cost effectiveness of dietary interventions by enabling flexibility to meet many of these needs, and advanced capability to personalise and automate aspects of dietary interventions and resource allocation.

The planned Special Issue seeks to include research regarding eHealth for dietary management, including formative work to inform eHealth dietary interventions, trials of eHealth dietary interventions, cost-effectiveness analyses and systematic reviews or other related papers on the topic of nutrition in e&mHealth.

Sciences, University of
Connecticut, Storrs, CT 06269,
USA

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Embase, PubAg, AGRIS, and other databases.

Journal Rank: JCR - Q1 (*Nutrition & Dietetics*) / CiteScore - Q1 (*Nutrition and Dietetics*)

Message from the Editorial Board

Nutrients is an on-line open access journal that was first published in 2009. *Nutrients* adheres to rigorous peer-review and editorial processes and publishes only high quality manuscripts that address important issues related to the impacts of nutrients on human health. The Impact Factor of *Nutrients* has risen rapidly since its establishment and it is now ranked in the first quartile of journals publishing in the field of nutrition and dietetics research.
