USA

Deadline for manuscript
submissions:

30 June 2024

Message from the Guest Editor

Dear Colleagues,

Heterocyclic molecules continue to exhibit new chemistries due to their unique reactivity and their central roles in biological chemistry. This Special Issue will cover the most recent discoveries in the synthesis and applications of heterocyclic molecules utilizing different strategies and methodologies, as well as aspects of medicinal chemistry incorporating these heterocyclic compounds. It is devoted to presenting and disseminating the most recent developments in this area.

an Open Access Journal by MDPI

Message from the Editor-in-Chief

Organics is a new open-access journal that offers rapid dissemination of innovative, informative, and impactful results in every aspect of organic chemistry, with a particular emphasis on new or significantly improved research results in the field of organic chemistry. The aim of this journal is to encourage scientists to publish their experimental and theoretical results in great detail to facilitate the advancement of organic chemistry. Sample research topics that span the journal's scope are organic synthesis, synthetic methodology, theoretical organic chemistry, physical organic chemistry, supramolecular and macromolecular chemistry, heterocyclic chemistry, organocatalysis, bioorganic chemistry, organometallic chemistry, functional organic materials, etc. We are flexible with the types of manuscripts accepted, including original research articles, short communications, highlights of new developments and insightful critical reviews.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [ESCI \(Web of Science\)](#), [CAPlus / SciFinder](#), and [other databases](#).

Rapid Publication: manuscripts are peer-reviewed and a first decision is provided to authors approximately 27.5 days after submission; acceptance to publication is undertaken in 12.6 days (median values for papers published in this journal in the second half of 2023).
