### Message from the Guest Editor

For many years, natural products have been the main source of ingredients which are important for the prevention and treatment of many diseases. In particular, plant extracts and their secondary metabolites should be mentioned. Many of them are still used successfully today. However, it is important to research known raw materials as well as constantly search for new ones that could be used, among others, as anticancer, anti-inflammatory and antioxidant agents. Chronic inflammation and oxidative stress may promote the development of many cancers, which is why studies on the therapeutic potential of natural compounds are extremely valuable.

This Special Issue aims to collect scientific papers concerning studies in vitro and in vivo on the anticancer, anti-inflammatory and antioxidant activities of natural compounds or products. Topics of interest include the evaluation of their mechanisms of biological and pharmacological action, the chemistry of active natural compounds, etc.

## Message from the Editor-in-Chief

Because of your expertise in the field of drug sciences, I kindly invite you to consider publishing your current work, in the form of a research article or a review, in the open access electronic journal *Pharmaceuticals*.

*Pharmaceuticals* is characterized by an active editorial board and a dynamic editorial staff. Manuscripts are peer-reviewed and a final decision is provided to authors within 4–6 weeks after submission. Papers are published on the web immediately after acceptance. For details on the submission process or any other matter, please do not hesitate to contact us.

We hope to handle your contribution to *Pharmaceuticals* soon.

## Author Benefits

**Open Access:** free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

**High Visibility:** indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [PMC](#), [Embase](#), [CAPus / SciFinder](#), and [other databases](#).

**Journal Rank:** JCR - Q2 (*Pharmacology & Pharmacy*) / CiteScore - Q2 (*Pharmaceutical Science*)
