Deadline for manuscript
submissions:

closed (31 January 2023)

Message from the Guest Editor

A significant number of already existing or newly investigated drugs and bioactive molecules are severely hindered by their low solubility in water and biological fluids (e.g., BCS class II and IV compounds). This process affects the development of many formulations and the clinical success of theoretically promising compounds.

In recent decades, researchers have developed various ideas and strategies to improve the solubility of drugs, and to formulate and efficiently deliver poorly soluble compounds at a pharmacologically active concentration, for example, by their inclusion in polymers or cyclodextrins, through micro/nanotechnological approaches, or by chemical changes in the molecules.

This Special Issue invites submissions that discuss the advanced ideas and experiments in this specific area of pharmaceutical science, presenting a contemporary perspective supported by recent scientific evidence, of the potentiality of formulating “difficult” compounds.

an Open Access Journal by MDPI

Pharmacy, Rutgers University,
Piscataway, NJ 08854, USA

Message from the Editor-in-Chief

Pharmaceutics (ISSN 1999-4923) is an online open access journal on the science and technology of pharmaceutics and biopharmaceutics. The scientific community, the wider community and the general public have unlimited and free access to the content as soon as a paper is published; this open access to your research ensures your findings are shared with the widest possible audience. Please consider publishing your impressive work in this high quality journal. We would be pleased to welcome you as one of our authors.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (*Pharmacology & Pharmacy*) / CiteScore - Q1 (*Pharmaceutical Science*)
