## Cereal Physiology and Breeding

Guest Editors:

**Dr. Gustavo A. Slafer**

Department of Crop and Forest Sciences, University of Lleida, AGROTECNIO Center, Av. Rovira Roure 191, 25198 Lleida, Spain

**Dr. Ernesto Igartua**

Estación Experimental de Aula Dei, EEAD-CSIC, Avenida Montañana 1005, 50059 Zaragoza, Spain

**Dr. Iker Aranjuelo**

Agrobiotechnology Institute (IdAB-CSIC)-Gobierno de Navarra, Campus de Arrosadia, E-31192 Mutilva, Baja, Spain

### Message from the Guest Editors

The main goal of the current Special Issue is to publish papers focused on physiological and genetic approaches, aiming at increasing both the actual and the potential productivity of cereals, closing the yield gap in stressful conditions, and increasing the nutritional quality and healthiness of cereal products. Topics covered will encompass understanding the physiological and molecular bases of cereal productivity, germplasm mining for relevant traits, improving productivity or quality of cereal crops via pre-breeding and breeding approaches, particularly considering the climate change perspectives. Within this context, multidisciplinary approaches, related to agronomy, physiology, high-throughput phenotyping, genomics, metabolomics, etc., will be welcomed.

Deadline for manuscript submissions:

**closed (15 April 2021)**

## Editor-in-Chief

### **Prof. Dr. Dilantha Fernando**

Department of Plant Science,  
University of Manitoba, Winnipeg,  
MB R3T 2N2, Canada

## Message from the Editor-in-Chief

*Plants* is an open access journal which provides an advanced forum for research findings in areas related to plant function, its physiology, biology, taxonomy, stresses, and its interactions with other organisms. It publishes original research articles, reviews, reports, conference proceedings (peer reviewed full articles) and communications. In original research papers, it is important that full experimental details are provided. We also encourage timely reviews and commentaries on topics of interest to the plant research community.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), PubMed, PMC, PubAg, AGRIS, CAPlus / SciFinder, and other databases.

**Journal Rank:** JCR - Q1 (*Plant Sciences*) / CiteScore - Q1 (*Plant Science*)
