### Message from the Guest Editors

As you probably know, Polymers in the last decade has become one of the leading journal as regards polymer science, representing today an interdisciplinary forum for the advances in the fields of polymerization methods, theory, simulation and modeling, understanding of new physical phenomena, advances in characterization techniques, and harnessing of self-assembly and biological strategies for producing complex multifunctional structures. This Collection is designed to publish high-quality review papers dealing with the different issues covered by the journal. The scope of this Topical Collection includes, but is not limited to:

- Polymer chemistry (synthesis);
- Polymer analysis (characterization, properties and behavior of polymers, structure-property-processing relationships);
- Polymer physics;
- Polymer theory and simulation;
- Polymer processing and performance;
- Polymer applications;
- Biopolymers;
- Polymer recycling;
- Polymer composites and nanocomposites;
- Green and sustainable chemistry in polymer science.

We are particularly interested in receiving manuscripts that review experimental and theoretical/computational studies as well as contributions from the industry.

## Message from the Editor-in-Chief

Since its foundation in 2009, *Polymers* has developed into an internationally renowned, extremely successful open access journal. The editorial team and the editorial board dedicatedly combine open-access publishing and high-quality rigorous peer reviewing. The performance of the journal has proven this strategy to be well-suited and highly successful. This is reflected in the increasing impact factor of *Polymers*, the most recent one being 4.9.

I would like to invite you to contribute to the success of the journal by sending us your high quality research papers. We would be pleased to welcome you as one of our authors.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), Ei Compendex, PubMed, PMC, FSTA, CAPlus / SciFinder, Inspec, and other databases.

**Journal Rank:** JCR - Q1 (Polymer Science) / CiteScore - Q1 (General Chemistry)
