Message from the Collection Editors

This Topical Collection is concerned with the chemistry and engineering aspects of different biopolymers (e.g., cellulose, chitosan/chitin, starch, proteins, and pectins) and biobased polymers (e.g., polylactide and polyhydroxyalkanoates). The collection provides an opportunity to discuss the trends in the field of biopolymers and biobased polymers, addresses the fundamental understanding of the structure–processing–property relationship for materials design, and highlights new, advanced, and functional materials developed from these sustainable polymers for diverse and emerging applications.

an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. Alexander Böker

Lehrstuhl für Polymermaterialien
und Polymertechnologie,
University of Potsdam, 14476
Potsdam-Golm, Germany

Message from the Editor-in-Chief

Since its foundation in 2009, *Polymers* has developed into an internationally renowned, extremely successful open access journal. The editorial team and the editorial board dedicatedly combine open-access publishing and high-quality rigorous peer reviewing. The performance of the journal has proven this strategy to be well-suited and highly successful. This is reflected in the increasing impact factor of *Polymers*, the most recent one being 4.7.

I would like to invite you to contribute to the success of the journal by sending us your high quality research papers. We would be pleased to welcome you as one of our authors.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, PubMed, PMC, FSTA, CAPlus / SciFinder, Inspec, and other databases.

Journal Rank: JCR - Q1 (Polymer Science) / CiteScore - Q1 (General Chemistry)
