Deadline for manuscript  
submissions:

**closed (31 January 2020)**

### Message from the Guest Editors

This is to present a Special Issue devoted to “Degradation and Stabilization of Polymer-Based Materials”, including composites, nanocomposites, polymer blends and biodegradable resins.

Papers are sought that deal with the stabilization and/or degradation of polymeric systems, either providing new insights on the processing-structure-ageing property relationships or investigating new additives/compounds leading to an improved resistance towards thermal, mechanical, photo-oxidative, biological degradation of polymer-based systems. Latest research dealing with degradative reactions in special application fields and/or proposing novel characterization protocols will also be of great interest.

an Open Access Journal by MDPI

## Message from the Editor-in-Chief

Since its foundation in 2009, *Polymers* has developed into an internationally renowned, extremely successful open access journal. The editorial team and the editorial board dedicatedly combine open-access publishing and high-quality rigorous peer reviewing. The performance of the journal has proven this strategy to be well-suited and highly successful. This is reflected in the increasing impact factor of *Polymers*, the most recent one being 4.9.

I would like to invite you to contribute to the success of the journal by sending us your high quality research papers. We would be pleased to welcome you as one of our authors.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), Ei Compendex, PubMed, PMC, FSTA, CAPlus / SciFinder, Inspec, and other databases.

**Journal Rank:** JCR - Q1 (Polymer Science) / CiteScore - Q1 (Polymers and Plastics)
