Message from the Guest Editor

This Special Issue on the “Synthesis and Applications of Nanomaterials” seeks high-quality papers focusing on recent advances in the preparation of nanomaterials, their characterization, and their technological applications.

The topics include but are not limited to the following:

- New methods for the preparation of nanoparticles or nano-assemblies;
- Novel processes for the creation of nanostructured coatings or solids;
- Technological applications of nanomaterials;
- New approaches to modeling and explaining the physical or chemical properties of nanomaterials;
- Characterization of the unique properties of nanomaterials.

Message from the Editor-in-Chief

You are invited to contribute either a research article or a comprehensive review for consideration and publication in *Processes* (ISSN 2227-9717). *Processes* is published in open access format – research articles, reviews, and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited, free access to the content. As an open access journal, *Processes* is supported by the authors and their institutes through the payment of article processing charges (APCs) for accepted papers. We would be pleased to welcome you as one of our authors.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, AGRIS, and other databases.

Journal Rank: CiteScore - Q2 (Chemical Engineering (miscellaneous))
