Deadline for manuscript
submissions:

closed (28 April 2024)

Message from the Guest Editors

This Special Issue aims to highlight the continuous evolution of prophylaxis systems, and to focus on new perspectives in this field.

We are happy to invite you to submit a manuscript for this Special Issue. Original research articles and reviews are welcome. Research areas may include (but are not limited to) the following:

- oral microbiota;
- implantology;
- prosthodontics;
- peri-implant mucositis;
- peri-implant disease;
- zirconia and lithium disilicate crowns;
- micro abrasive powders;
- minimally invasive instrumentation;
- laser;
- ozone;
- natural substances;
- gradual release gel.
