Engineering, University of
Florence, Via Santa Marta 3,
50139 Firenze, Italy

Deadline for manuscript
submissions:

closed (31 October 2019)

Message from the Guest Editor

Dear Colleagues,

We would like to invite you to submit articles about your recent research with respect to the following topics.

- Processing techniques for focusing, co-registering, and unwrapping data acquired through ground-based radar interferometry
- Processing techniques for mitigating the atmospheric effects in ground-based radar interferometry
- Design and testing of ground-based interferometric radar systems
- Remote sensing of landslides, volcanoes, glaciers, snow avalanches, mines, engineered slopes, and infrastructures such as buildings, dams, bridges and towers through ground-based radar interferometry
- Ground-based radar interferometry as tool for emergency management
- Review articles covering one or more of these topics are also welcome.

Prof. Dr. Massimiliano Pieraccini

Geographic Information Systems,
Peking University, Beijing, China

Message from the Editorial Board

Remote Sensing is now a prominent international journal of repute in the world of remote sensing and spatial sciences, as a pioneer and pathfinder in open access format. It has highly accomplished global remote sensing scientists on the editorial board and a dedicated team of associate editors. The journal emphasizes quality and novelty and has a rigorous peer-review process. It is now one of the top remote sensing journals with a significant Impact Factor, and a goal to become the best journal in remote sensing in the coming years. I strongly recommend *Remote Sensing* for your best research publications for a fast dissemination of your research.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, PubAg, GeoRef, Astrophysics Data System, Inspec, dblp, and other databases.

Journal Rank: JCR - Q1 (Geosciences, Multidisciplinary) / CiteScore - Q1 (General Earth and Planetary Sciences)
