Prof. Dr. Krištof Oštir
Chair of Geoinformatics and Real Estate Cadastres, Faculty of Civil and Geodetic Engineering, University of Ljubljana, Ljubljana, Slovenia

Prof. Dr. Matthew McCabe
Division of Biological and Environmental Sciences and Engineering, King Abdullah University of Science and Technology, Thuwal 23955, Saudi Arabia

Deadline for manuscript submissions:
closed (31 December 2019)

Message from the Guest Editors

Dear Colleagues,

The focus of this special issue is to explore the potential of these new and emerging satellite platforms to advance the retrieval capabilities of earth observing sensors. Satellites offering a range of sensing capabilities and providing insight into the earth system are invited. Potential topics might include:

- Earth observation applications with operational small-satellite missions
- New processing and analysis methods developed for small-satellite products
- Product simulations of missions that are due to launch
- Advanced earth observation and insights gained from using constellations and formations of small satellites
- Technology demonstrations of emerging small-satellite systems

Message from the Editor-in-Chief

Remote Sensing is now a prominent international journal of repute in the world of remote sensing and spatial sciences, as a pioneer and pathfinder in open access format. It has highly accomplished global remote sensing scientists on the editorial board and a dedicated team of associate editors. The journal emphasizes quality and novelty and has a rigorous peer-review process. It is now one of the top remote sensing journals with a significant Impact Factor, and a goal to become the best journal in remote sensing in the coming years. I strongly recommend *Remote Sensing* for your best research publications for a fast dissemination of your research.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.
High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, PubAg, GeoRef, Astrophysics Data System, Inspec, dblp, and other databases.
Journal Rank: JCR - Q1 (*Geosciences, Multidisciplinary*) / CiteScore - Q1 (*General Earth and Planetary Sciences*)
