closed (30 September 2022)

Message from the Guest Editors

Resources released its first issue in 2012 is now celebrating its 10th anniversary. Thanks to all contributing researchers along with our dedicated reviewers and editorial team, Resources has become a popular outlet for publishing research on topics concerning natural resources.

This Special Issue has been set up to commemorate the 10th anniversary of Resources. The focus will be on the publication of comprehensive reviews, regular articles and short communications reflecting the progress in sustainable resources management over the last 10 years. We also invite integrated assessments on the use and/or status of major resources in the focus of the journal: energy, water, food and bio-resources, minerals, land and ecological resources plus governance and policy aspects. We also welcome forward-looking articles examining issues reflecting on the main societal challenges and on how to achieve the Sustainable Development Goals within planetary boundaries.

We encourage authors representing traditional knowledge to provide alternative approaches to the mainstream perspectives in resources use.

an Open Access Journal by MDPI

Message from the Editor-in-Chief

Responsible prosperity is underpinned by sustained access to resources. *Resources*, publishes excellent science and scholarship which transforms understanding, practices and policies for conserving all natural resources—from water, land and air; to plant and animal biodiversity; to minerals and energy and their interconnection across scales. Significantly, we invite high quality submissions from natural and social sciences.

Build impact from your research by submitting to *Resources*, an open-access journal connecting you with data, insights, ideas and evidence needed to shape a better world.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, ESCI (Web of Science), GeoRef, PubAg, AGRIS, RePEc, and other databases.

Journal Rank: CiteScore - Q1 (*Nature and Landscape Conservation*)
