submissions:

**closed (25 March 2024)**

### Message from the Guest Editor

Dear Colleagues,

This special issue of *Sci* is intended to highlight and report new insights related to the interface of human, animal, and environmental health. For this issue, we invite papers related to the clinical and/or environmental significance of the intersecting factors of One Health. We also invite papers which report research findings related to mechanisms, models, causative factors, or solutions to the interrelated problems at the intersection of One Health.

Dr. Mark Brown
